DETAILED ACTION

Drawings

New corrected drawings are required in this application because the labeling of the figures require clarification, in addition although an asymmetrical blade is illustrated, it would be appreciated if this feature were better emphasized. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims 7, 9-12 and 18-23 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor suggest, in the claimed combination, the blade further being asymmetrical to provide sequential contact and separation between the first electrical contact and the stationary electrical contact and the second electrical contact and the load terminal electrical contact

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
